Mobile Application Developer
Intern

Paul Consulting Group, (PCG) an IT solutions provider in Tallahassee, Florida, is currently seeking candidates for a Mobile Application Developer Intern to become part of our PCG Learning Academy. This hourly, paid internship will learn structured Android **mobile device** application programming to facilitate the development of Android mobile applications utilizing Native Mobile app technologies. The successful candidate will get experience developing mobile applications with object-oriented design techniques utilizing mobile application development technologies for native apps hosted on the Android platform.

Duties

- Learning mobile-based Java language
- Designing and implementing mobile applications using Android Studio
- Adhering to software requirements specifications
- Cultivating and maintaining strong relationships with the project teams.
- Assisting with the effort to improve the Academy for the next intern

Degree
- Working towards a Bachelor's Degree or higher in Computer Science, MIS, or IS, or related field.

Essential Skills

Preferred, but not required:

- Native IOS and/or Android development languages: Java, Swift
- MySQL, Microsoft SQL Server *(or other relational database management system)*
- Some familiarity of Android Studio or XCode
- Strong technical and programming skills.
- A creative mind.
- Ability and desire to work in a team environment.
